

Results Self Assignment 23.01

	<p>01 Fungi – A lovely colour balance and layout with a very suitable border. Very well done. <i>Honours.</i></p>
	<p>02 Wall Art – A good presentation with an interesting brick-work background. All the images face inward which is desirable, and the different shapes make it compositionally desirable. <i>H/C</i></p>
	<p>03 Better Landscapes – These Images are stunning, but the presentation lets it down. The Self Assignment competition requires that the display be self-supporting. <i>Merit.</i></p>
	<p>04 A Spin on Hands – This Author certainly has had fun with filters. It is eye-catching and innovative, and the purple backing holds it all together. <i>H/C</i></p>
	<p>05 Monarch – These are lovely sharp images, even showing the spun web. While the presentation is well-balanced there is too much blank space. Perhaps print the images larger or make the overall presentation smaller. <i>H/C</i></p>
	<p>06 Gold – This is a beautifully-presented set, showing great technique. It is innovative, simple, but effective, using three different styles which work well together. And the black background is spot on. <i>H/C</i></p>
	<p>07 Lest We Forget – The lighting here is cleverly managed and the whole set is very well presented. It is well-balanced and beautifully clear. <i>H/C</i></p>
	<p>Runner-up - Gold Winner - Fungi.</p>
